Education

Curtin University
Bentley, WA
Bachelor of Computer: Software
Engineering Major

Key Skills

Java programming
C programming
Basic understanding of GitHub
Agile Methodology
Problem-solving
Data structures and algorithms

Professional Summary

Ambitious software engineering student seeking a challenging and informative internship position where I can apply and improve my programming skills to real-world projects and learn from experienced developers. Proficient in Java and C, I'm looking to gain a stronger understanding on how it ties into real workplace experience with an aim to become a full-stack developer.

Experience

October 2017 to June 2023

Team-Member | Bunnings Warehouse

- Over 3 years full-time employment.
- Collaborated with other team-members to drive efficient operations.
- Demonstrated strong work ethic and reliability by consistently meeting or exceeding attendance and punctuality expectations.
- Met high volume of daily demands and challenging schedule.
- Took initiative to learn new product placements and store layout, improving guidance offered to customers which optimized their shopping experience.
- Proactively identified customer needs and provided solutions, leading to more efficient resolution of inquiries and increased customer loyalty.
